Spoken languages: 🇮🇹 Italian (Native), 🇬🇧 English (Professional)
Current Stack JavaScript/TypeScript, React, Node.js, Postgres, Unit testing (Jest, Vitest), PostCSS/TailwindCSS.
Other professional skills: Angular, RxJS, Vue, CSS/SASS/LESS, PHP, WordPress, MySQL, MongoDB.

Senior Software Engineer @ *Daily.dev* *(07/2024 - **today**) - [scrum, remote, english first]*

As a senior engineer I focus on developing and maintaining the Daily.dev platform, mostly working on Open Source repositories with Node.js and React/ Next.js. Some key points:
- Took care of projects from writing technical ADRs & RFC documents to lead team coding them;
- Improved performance by 30% by leading a company optimization sprint;
- Increased DX implementing state management and dev design patterns;
- Worked on big projects such as onboarding flow rewriting, post moderation and bookmark systems;
- Used AI code assistant such as *Cursor, Junie, Claude, Copilot*.
[TypeScript, React, Next.js, TailwindCSS, Jest, Node.js, TypeORM, Postgres, Docker]

Senior Web Consultant @ *Self-employee (02/2022 - 07/2024) - [remote, b2b work]*

I've worked as a consultant for many clients and taught in coding courses/bootcamps.
- Built a digital teaching platform for teachers/students used by many Italian public schools;
- Worked on a modular and accessible (WCAG 2.1) design system for a bank;
- Delivered several web applications and headless e-commerce platforms;
- I've taught in 5 React coding bootcamp (<u>Edgemony</u>) and 1 Angular/TypeScript bootcamp;
- Coached 100+ devs on <u>Start2Impact</u>.
[TypeScript, Angular, Vue, React, Redux, NgRx, PHP, WordPress, Node.js, Jest, Vitest, Docker]

Lead Web Engineer @ *The Wave* *(01/2019 - 02/2022) - [agile, hybrid, leading role]*

I was responsible for the web dev team in a digital consultancy agency.
- Led a team of 12 working on projects, providing both technical leadership and active code development.
- Focused on R/D, looking for new patterns/CMS/libraries to be implemented, aiming for the best quality.
- I was in charge of the technical growth of the team, organized internal educational meetups;
- Managed the budget for hiring and interviewed new team members.
[TypeScript, RxJs, Angular, Vue, React, PHP, WordPress, Node.js, Jest, Docker]

Senior Frontend Developer @ Motorsquare *(09/2017 - 01/2019) - [agile, on site, leading role]*

Developed and maintained the startup's web/desktop applications in Angular,Vue.js and Electron. Applying all the good rules of web development such as client-side cache (also via database in browser), skeleton, accessibility.
[HTML, SASS, JavaScript, TypeScript, RxJs, Angular, Vue, Electron]

Founder & CTO @ HereToday *(11/2015 - 08/2017) - [agile, hybrid]*

Built a full-stack restaurant recommendation app that uses NLP to analyze reviews and pinpoint user preferences. Designed and developed the landing page, web platform, and mobile app using cross-platform technology. Deployed the entire architecture on Microsoft Azure.
[HTML, LESS, SASS, JavaScript, Meteor.js, Angular, Ionic, Node.js, MongoDB, Azure (cloud)]

Frontend Developer & UI Designer @ LovePedia / *eADV* *(01/2015 - 11/2015) - [part-time, on site]*

In charge of the complete redesign and frontend development of the LovePedia portal. Built and implemented the UI components using mainly vanilla JS with a focus on performance and user experience.
[HTML, LESS, JavaScript, jQuery, PHP]

WordPress Developer @ Yithemes *(09/2013 - 09/2014) - [on site]*

Built and maintained themes and plugins for popular marketplaces (YIThemes & ThemeForest), with a focus on performance, multi language compatibility and best practices. Provided remote support to customers, troubleshooting and resolving technical issues.
[PHP, MySQL, WordPress, JavaScript]
