- Working as Web Developer since 2013;
- 3+ years of experience as a team leader;
- Teached 100+ developers Typescript, React and Angular from scratch;
- Multiple experiences in startup environment;

Languages & Libraries	Front-end	Back-end
JavaScript (pro)	React (pro)	Node.js (Express, Koa, Nest) (good)
TypeScript (pro)	Angular (pro)	WordPress (pro)
RxJS (pro)	Vue (good)	MySQL (basic)
PHP (good)	Unit testing (Jest, Vitest) (good)	MongoDB (basic)
CSS (SASS, PostCSS) (pro)		

🗣️ **Spoken languages:** 🇮🇹 Italian (Native), 🇬🇧 English (Professional)

Core experiences (2019-today)

Senior front-end consultant & teacher

Sentiero.digital – *(02/2022 - **today**)*

As an independent consultant I was involved in various projects, including:
- Led a 4-member team in building a sophisticated data dashboard with React, TypeScript, Redux;
- Developed a component library for a bank using React, TypeScript, and Styled Components;
- Crafted several headless e-commerce using React, Next.js/Remix, TypeScript, Shopify/Woocommerce;
- Built a travel-oriented single-page application with Angular, TypeScript, and RxJS;
- Customized WordPress themes and plugins, including integration with external services;
- Teached at 5 bootcamps (4 JavaScript & React, 1 TypeScript & Angular);

Tech stack: **[TypeScript, Angular, Vue, React, Redux, NgRx, PHP, WordPress, Node.js, Jest, Vitest, Docker]**

Co-Founder & Lead Web Developer

The Wave Studio – *(01/2019 - 02/2022)*

Co-founded in 2019, I led the web dev team (12 members) while keeping coding on high-impact projects when the technical challenge demands strong execution, in-depth development knowledge, and collaboration across various roles. My responsibilities include continuous research and development, exploring new languages, patterns, CMS, and libraries for new implementation within the company projects. Managed all aspects of the team, including hiring, onboarding, training, and code reviews.

Tech stack: **[TypeScript, RxJs, Angular, Vue, React, PHP, WordPress, Node.js, Jest, Docker]**

Other experiences (2013-2019)

Senior Front-end Developer

Motorsquare – *(09/2017 - 01/2019)*

Developed and maintained the startup's web/desktop applications in Angular,Vue.js and Electron. Applying all the good rules of web development such as client-side cache (also via database in browser), skeleton, accessibility.

[HTML, SASS, JavaScript, TypeScript, RxJs, Angular, Vue, Electron]

Founder & CTO

HereToday – *(11/2015 - 08/2017)*

Built a full-stack restaurant recommendation app that uses NLP to analyze reviews and pinpoint user preferences. Designed and developed the landing page, web platform, and mobile app using cross-platform technology. Deployed the entire architecture on Microsoft Azure.

[HTML, LESS, SASS, JavaScript, Meteor.js, Angular, Ionic, Node.js, MongoDB, Azure (cloud)]

Front-end Developer & UI Designer

Newmediabit – *(01/2015 - 11/2015)*

In charge of the complete redesign and front-end development of the LovePedia portal. Built and implemented the front-end components using mainly vanilla JS with a focus on performance and user experience.

[HTML, LESS, JavaScript, jQuery, PHP]

WordPress Developer

Yithemes – *(09/2013 - 09/2014)*

Built and maintained themes and plugins for popular marketplaces (yithemes & themeforest), with a focus on performance, multi language compatibility and best practices. Provided remote support to customers, troubleshooting and resolving technical issues.

[PHP, MySQL, WordPress, JavaScript]

Education, Licenses & Certifications

International High IQ Society certificate

International High IQ Society – *(Dec 2023)*

SAFe® Scrum master course

Scaled Agile – *(May 2023)*
